

SQL Advent Calendar

Santa's audit team is reviewing this year's behavior scores to find the extremes — write a query to return the lowest and highest scores recorded on the Naughty or Nice list.

Question 1: Santa's audit team is reviewing this year's behavior scores to find the extremes — write a query to return the lowest and highest scores recorded on the Naughty or Nice list.

```
SELECT
    child_name,
    behavior_score
FROM behavior_scores
WHERE behavior_score = (SELECT MIN(behavior_score) FROM behavior_scores)

UNION ALL

SELECT
    child_name,
    behavior_score
FROM behavior_scores
WHERE behavior_score = (SELECT MAX(behavior_score) FROM behavior_scores);
```
